E-DOCKET ID No. ORD-2004-0003

Telephone Conference Call of the

World Trade Center Expert Technical Review Panel

to Continue Evaluation on Issues Relating to Impacts of the

Collapse of the World Trade Center Towers

AGENCY: Environmental Protection Agency

ACTION: Notice of Telephone Conference Call

SUMMARY: The World Trade Center Expert Technical Review Panel will hold a telephone conference call to provide for greater input on ongoing efforts to monitor the situation for New York residents and workers impacted by the collapse of the World Trade Center. The individual panel members will help guide the EPA's use of the available exposure and health surveillance databases and registries to characterize any remaining exposures and risks, identify unmet public health needs, and recommend any steps to further minimize the risks associated with the aftermath of the World Trade Center attacks. The panel will meet several times over the course of approximately two years, and these panel meetings will be open to the public, except where the public interest requires otherwise. Information on the panel meeting agendas, documents (except where the public interest requires otherwise), and public registration to attend the meetings will be available from an Internet web site. EPA has established an official public

docket for this action under Docket ID No. ORD-2004-0003. Instructions for the dial-in telephone conference call are in **SUPPLEMENTARY INFORMATION**.

DATES: The telephone conference call of this panel will be held on May 12, 2004, from 11:00 A.M. to 1:00 P.M., Eastern Daylight Savings Time.

FOR FURTHER INFORMATION CONTACT: For call information, please see the web site <http://www.epa.gov/wtc/panel> or contact Sarah Bauer by telephone at (202) 564-3267 or by email at bauer.sarah@epa.gov. The meeting agenda will be posted on the web site and EDOCKET and will also be available in hard copy. For further information only regarding the technical panel, contact Michael Brown at (202) 564-6766 or brown.michael@epa.gov

SUPPLEMENTARY INFORMATION:

I. Call Information

The meeting proceedings can be heard live by following these instructions for the dial-in telephone conference call:

1. **Dial 1-800-341-3088** and follow the voice prompt.
2. At the voice prompt, **enter the Conference Code 1646347 and the # key.**
3. You will be connected to the conference.

4. If you are disconnected for any reason, you can dial 1-800-341-3088 and enter Conference Code 1646347 # to continue with the conference or call the Conference Center at 1-800-574-3456 for further assistance.

PLAYBACK INSTRUCTIONS

The conference call will be recorded. To listen to the recording:

1. Dial 1-800-756-3819 after 2:00 P.M. Eastern Daylight Savings Time on May 12th.
2. At the voice prompt, press 162137 followed by the # key.
3. The conference will then be played back to you over the phone.

The nine digits on your keypad will allow you to control the playback:

1. Slow Rewind
2. Increase volume
3. Slow Forward
4. Medium Rewind
5. Pause On/Off
6. Medium Forward

7. Fast Rewind

8. Decrease Volume

9. Fast Forward

II. Background Information

Immediately following the September 11, 2001, terrorist attack on New York City's World Trade Center, many federal agencies, including the EPA, were called upon to focus their technical and scientific expertise on the national emergency. EPA, other federal agencies, New York City, and New York State public health and environmental authorities focused on numerous cleanup, dust collection and ambient air monitoring activities to ameliorate and better understand the human health impacts of the disaster. Detailed information concerning the environmental monitoring activities that were conducted as part of this response is available at the EPA Response to 9-11 web site at <http://www.epa.gov/wtc/>.

In addition to environmental monitoring, EPA efforts also included toxicity testing of the dust on laboratory mice, as well as the development of a human exposure and health risk assessment. This risk assessment document, *Exposure and Human Health Evaluation of Airborne Pollution from the World Trade Center Disaster* (<http://www.epa.gov/ncea/wtc.htm>), has been subjected to public comment and expert peer review, and is currently undergoing revisions prior to finalization. Numerous additional studies by other Federal and State agencies, universities, and other organizations have documented impacts to both the outdoor and indoor environments, and to human health.

While these monitoring and assessment activities were ongoing, and the cleanup at Ground Zero itself was occurring, EPA began planning for a program to clean and monitor residential apartments. From June 2002 until December 2002, residents impacted by World Trade Center dust and debris in an area of about 1 mile by 1 mile south of Canal Street were eligible to request federally funded cleaning and monitoring for airborne asbestos or only monitoring of their residences. The cleanup continued into the summer of 2003, by which time the EPA had cleaned and monitored 3400 apartments and monitored an additional 800 apartments. Detailed information on this portion of the EPA response is also available at <http://www.epa.gov/wtc/>.

A critical component of understanding long-term human health impacts is the establishment of health registries. The World Trade Center Health Registry is a comprehensive and confidential health survey of those most directly exposed to the contamination resulting from the collapse of the World Trade Center towers. It is intended to give health professionals a better picture of the health consequences of 9/11. It was established by the Agency for Toxic Substances and Disease Registry (ATSDR) and the New York City Department of Health and Mental Hygiene (NYCDHMH), in cooperation with a number of academic institutions, public agencies and community groups. Detailed information about the registry can be obtained from the registry website at: <http://www.nyc.gov/html/doh/html/wtc/index.html>.

In order to obtain individual advice on the effectiveness of these programs, unmet needs and data gaps, the EPA has convened a technical panel of experts who have been involved with World Trade Center assessment activities. Dr. Paul Gilman, EPA Science Advisor, serves as Chair of the panel, and Dr. Paul Liroy, Professor of Environmental and Community Medicine at

the Environmental and Occupational Health Sciences Institute of the Robert Wood Johnson Medical School-UMDNJ and Rutgers University, serves as Vice Chair. A full list of the panel members and a charge statement and operating principles for the panel are available from the panel web site listed above. Panel meetings will each be one-day meetings, and they will occur over the course of approximately a two-year period. Panel members will provide individual advice on issues the panel addresses. These meetings will occur in New York City and nearby locations. All of the meetings will be announced on the web site and by a Federal Register Notice, and they will be open to the public for attendance and also to provide brief oral comment. The focus of the phone call is to discuss a draft sampling program to evaluate the incidence of contamination in apartments around the World Trade Center site. Future meetings will address planned activities by EPA regarding monitoring, assessment and health registries. Further information on these meetings can be found at the web site identified earlier: <http://www.epa.gov/wtc/panel>.

III. How to Get Information on E-DOCKET

EPA has established an official public docket for this action under Docket ID No. ORD-2004-0003. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Office of Environmental Information (OEI) Docket in the Headquarters EPA Docket Center, (EPA/DC) EPA West

Building, Room B102, 1301 Constitution Avenue, N.W., Washington, DC 20460. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OEI Docket is (202) 566-1752; facsimile: (202) 566-1753; or e-mail: ORD.Docket@epa.gov.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket identification number.
